

# FLAMMABLE HAZARD REVIEW

## Safety Data Sheet Information

Name of flammable material \_\_\_\_\_

GHS Hazards

Is this a particularly flammable material? Yes/No

- Appropriate personal protective equipment (lab coat, safety glasses, gloves).
- First aid kit located.
- Fire extinguisher located.

## Work Practices and Engineering Controls

- There are no flammable materials nearby (liquids, paper, gases, fumes).
- The Bunsen burner is in good, working condition.
- The gas line tubing in good shape (not brittle or cracked).
- The Bunsen burner is positioned far from any shelving or overhead items.
- The work space is free from spark hazards (static, electric, mechanical).
- The work space is well ventilated and free from drafts.
- The work is being performed while other lab members are present.
- There is a chemical spill kit nearby.

## Clean up

- Flammable material returned to proper storage location.
- Bunsen burner turned off.
- Appropriate chemical waste disposal performed.
- Work area cleaned.
